

Y4 Multiplication Test Check

This year our Year 4 children will undertake the Y4 online Multiplication Test Check. This test will be done by all Y4 children nationally. The test involves 25 quick fire tables questions done online, allowing 6 seconds to answer each. To give our children the best preparation for this test, we will be using multiplication drill books all year in school. Also, we will be practising in school using a similar online programme which is very close to the actual test they will sit at some point during the period 10th June – 28th June 2020. The computer used to take this test will have a keyboard so if they could practise using this format it would be helpful to them. This programme will enable your child to practise at home as many times as they like so that they are as confident as they can be with the format of the test and the 6 second time frames. We encourage your child to practise as much as they can to prepare themselves. It might be an idea to have a go at it yourself so you can understand the time pressure yourself!
